

ROMA RGB

Proiettore professionale di forma quadrata, per illuminazione di edifici, giardini, negozi, ecc. Corpo in alluminio anodizzato e verniciato con polveri epossidiche adatte all'uso gravoso in ambienti con alto tasso di salinità. Perfetta tenuta stagna grazie a guarnizioni in silicone ed a pressacavi stagni in ottone. Lenti prismatiche ad emissione spot e medium o large. Vetro di protezione temperato resistente agli shock termici. Sorgente luminosa multicolore RGB.

Square shape professional projector for lighting of buildings, gardens, shops, etc. Anodized aluminum housing painted with epoxy powder suitable for use in environments with high salinity. Perfect waterproof seal in any conditions thanks to silicone gaskets and to brass waterproof cable glands. Prismatic lenses with spot, medium or large beam angles. Protective tempered glass resistant to thermal shock. Multicolor RGB sources
